Jefferson Patterson Park & Museum

DAILY FIELD JOURNAL

Site 18CV271
Project Patuxent Point
Date 23 October 1989
Observer M. Renuart

1. Day's activities: Lab work, reorganization of artifacts

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

   Bagging Dry Artifacts
   Cataloguing Units 1700 1701 - 1716
   Read: Bass (1971) on bone cleaning
   Noël-Hume (1972) on stonewares

3. Comments and interpretations:

   1. Problems of provenience with N170 E 50; 2 bags w/this provenience.
      Field notes don't clarify.

   2. Can't identify provenience for mixed artifacts from bug episode.

   3. Missing bags 1704, 1707 (1220, 1221, 1322, 1422, 1504, 16, 21, 1625)
Jefferson Patterson Park & Museum

DAILY FIELD JOURNAL

Site: 18 CV 271
Project: Patuxent Point
Date: October 24, 1989
Observer: M. Renuart

1. Day's activities: Labwork

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

- Catalogued Units 1717 - 1906
- Read: Noël-Hume (1972) on pipes

3. Comments and interpretations:

   (1) Provenience problems
       a. two bags labeled N180 E050 > nice pattern!
       b. two bags labeled N190 E050 (N170 E050 also)

   (2) Missing bags: 1720, 1807, 1868, 1817, 1900
Jefferson Patterson Park & Museum

DAILY FIELD JOURNAL

Site 18CV271
Project Patuxent Point
Date 25 October 1989
Observer M. Rehuart

1. Day's activities: Labwork

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)
   Washing Unit 1115 B (re-wash)
   Catalogued units 1908 - 1916

3. Comments and interpretations:
   1. Missing bags: 1907
   2. Need to clarify the daube characteristics
      am leaving all Pre-historic pottery in provenience bag for stu.
1. Day's activities: Labwork

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

   Catalogued Units 1917 - 2115

3. Comments and interpretations:

   1. Missing bags: 2007, 2107, 2113
   2. Began cataloguing both bags for provenience 2005 and wrote respective dates of collection on catalogue sheet.
   3. Stu has removed some of the pre-historic stuff and left a note in each bag of what it was. This helps me to catalogue faster and more precisely. He was told to stop, though...
   4. I've been putting the questionable bags (i.e. the double collected stuff) on the top shelf of the Patuxent cabinet.
      - Where would you like me to put add-ins on the cat sheets?
      - Shall I make a note (i.e. goto or x) in its chronological spot that this provenience info. is elsewhere?
      - Should I catalogue both bags when an area was double collected?
   5. I would like a double sample...

   6. There's an awful lot of 'Firecracked Rock'. I'm thinking some is flow-cracked but am not making this distinction...
Jefferson Patterson Park & Museum

DAILY FIELD JOURNAL

1. Day's activities: Labwork

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)
   - Catalogued Units 2110-2328
   - Finished boxed off surface collection
   - Bagged Artifacts

3. Comments and interpretations:
   1. Missing bags 2207, 2307, 2324, 2325
   2. Had many proveniences with 2 bags so catalogued both but kept them separate.
DAILY FIELD JOURNAL

1. Day's activities: Labwork

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)
   - Washed
   - Catalogued - plowzones: 1009 A
     - 1011 B
     - 1014 A
     - 1016 B

3. Comments and interpretations:

   ____________________________________________________________
   ____________________________________________________________
   ____________________________________________________________
   ____________________________________________________________
   ____________________________________________________________
   ____________________________________________________________
Site 18CV279
Project Patuxent Point
Date 01 March, 1990
Observer M. Renwart

1. Day's activities: Labwork
   volunteer: Al - Parran Barn Stuff

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)
   - Finished munselling Compton Flint
   - Re-munselled Patuxent Pt. Flint
   - Discussed flake morphology w/stu
   - Figured out new catalogue system so each artifact will have individual, unique number

3. Comments and interpretations:
   Put written descriptions of the procedure for assigning catalogue numbers in each of the following folders:
   1. Patuxent Point Surface collection cat. sheets
   2. Patuxent Point Plowzone Cat. Sheets
   3. Patuxent Point Humus Cat. Sheets
   4. Compton Plowzone Inventory sheets

   Also - gave copies to
   Julie
   Trish
   Jim
Procedure for assigning catalogue numbers:
for 1BCV271 - Patuxent Point
1BCV279.P2 - Compton Plowzone

We will add a new number, 1 - X, to each artifact within each provenience and/or strata.

All of the new numbers will begin with European Flint and will continue, eventually, with all other artifacts as appropriate analysis is carried out.

FOR EXAMPLE:

<table>
<thead>
<tr>
<th>Cat. # BEFORE change</th>
<th>Cat. # AFTER change</th>
</tr>
</thead>
<tbody>
<tr>
<td>1309H - 1 Flint Flake</td>
<td>1309H.1 - 1 Flint Flake</td>
</tr>
<tr>
<td>1309H - 1 Flint Flake</td>
<td>1309H.2 - 1 Flint Flake</td>
</tr>
<tr>
<td>1309H - 1 Pipe Stem</td>
<td>1309H.3 - 1 Pipe Stem</td>
</tr>
<tr>
<td>1509A - 1 Flint Flake</td>
<td>1509A.1 - 1 Flint Flake</td>
</tr>
<tr>
<td>1509A - 1 Pipe Stem</td>
<td>1509A.2 - 1 Pipe Stem</td>
</tr>
</tbody>
</table>

The assigned numbers for each artifact category will also be added to catalogue sheets

FOR EXAMPLE:

3 European Flint Flakes (assigned Nos. 1-3)

Project Patuxent Point
Date 06 March 1990
Observer M. Renuart

1. Day's activities: LABWORK

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

   Finished cataloguing grave stuff
   Read on Flint
   Bead comparison w/slides
   SYMAP stuff (Comopton)

3. Comments and interpretations:
1. Day's activities: Labwork

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)
   - finished outlining Compton synaps
   - read on flint
   - analysis of lead shot, sprue, bullets
     for Patuxent Point & Compton

3. Comments and interpretations:
Day's activities: Labwork
Volunteers: Al, Susan Erbtt

Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)
Safety meeting 9-11
discovered many of Compton artifacts have not been pulled, labelled, or
inventoried - decided not to begin
a more thorough cataloguing of
materials, but, instead, go through

Comments and interpretations:
and pull ('label) all ceramics,
pipe fragments, flint, and lead shot.
Units 1-60 completed.
1. Day's activities: Labwork

2. Areas and levels worked or supervised: Look thru Compton artifact boxes pulling rest of flint, ceramics, tobacco pipe & lead shot
   Found flint stash! lots of cores and various flake types.
   Read some on Flint

3. Comments and interpretations: 
Jefferson Patterson Park & Museum

DAILY FIELD JOURNAL

1. Day's activities: LABWORK

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)
   - Read on Flint
   - Re-did Compton Flint on spreadsheet
   - Organized files
   - Washed Mr. Howard artifacts

3. Comments and interpretations:

   Volunteer - A1 - parran barn

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)
   - pulled & labeled all pipes & fragments from Pax Pt. up to 1709 C
   - washed Pax Pt. artifacts

3. Comments and interpretations:
Jefferson Patterson Park & Museum
DAILY FIELD JOURNAL

Site: 18CU271
Project: Patuxent Point
Date: 30 March 1990
Observer: M. Renuart

1. Day's activities: LABWORK

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)
   - Washed Pax Pt. artifacts
   - Pulled & labelled pipes from Pax Pt. up to 1717 C.

3. Comments and interpretations:
   - Artifact count for March = 2,500
Day's activities: Cataloguing feature materials

Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

1215 H - 148; 1215 E - 145;
1316 H - 110; 1515 E - 10;
1518 E - 28; 1518 F - 27;
1518 G - 66

Comments and interpretations: Three proveniences required some rewashing, 1316 H; 1215 E; and 1518 E. These materials were catalogued but some diagnostics will require labelling/pulling after they dry. Notes to this effect were attached to the catalogue sheets.
Total artifacts - 536

Time: 11:00 am - 5:00 pm

Note: historic ceramics were pulled from bags.

Maps (plans) 1316, 1416, 1516; 1415, 1515;

Sections (1316 C, 1716 E/F, 1816 E)

Soils: (plans) 1513, 1516 (sections 1316 12)

1716 E/F; 1816 E/1916
Site: 18 CV 271
Project: Patuxent Point - Grave 8
Date: 4-25-91
Observer: A. Turrowski

1. Day's activities: Bagged Grave No 8, using team. Placed in two boxes, 8-1 and 8-2 (skull 2 + 3). Placed No 6 cranium in box 8-1.

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

3. Comments and interpretations: Very much want to get inventory on disk. Started to started Table in WP 511 (skel. no) (skeletons, no) but had format problems. Made copy of inventory sheet to work on at my home.
Jefferson Patterson Park & Museum

DAILY FIELD JOURNAL

Site 18 CV 271
Project Patuxent Point
Date 15 May 1991
Observer PJM

1. Day's activities: Rebagging

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)
   Grave 5
   Grave 9, incompletes
   Grave 3
   1713 Y: 1713 E
   2108 C

3. Comments and interpretations: Borrowed ethafoam from MAC/Beth, to bag skeletal material.
   Virtually complete skeletons (#5, 9)
Project: Patuxent Point  
Date: 16 May 1991  
Observer: PJM

1. Day's activities: Records checking compatibility, presence/absence of catalogue sheets and provenience cards.

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

3. Comments and interpretations: Checked records and cards, corrected some (the majority) in the process. Still missing information elevation; contents/interpretation designations for cross section lines.

   * need to copy more journals and completing
   * need to continue checking cards
1. Day's activities: Cleaning skeleton #10 - low on screen. So cleaning limited to long bones and ribs. Cleaned two boxes - one more box to clean 5/20.

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

3. Comments and interpretations: Appears to be older male (have not cleaned out pelvis yet) one leg slightly longer than other - lesions on femur & tibia. Must have limped a bit!

Bones very porous, some deformity - syphilis?
1. Day's activities: Maps records

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)
   - Maps: (Sections) 1515F; 1618 & 1619; 2210E-H; 2608 E/F & 2608 G, H, K
   - Plans: 1312, 1412, 1512; 1315, 1316, 1317, 1614, 1714, 1814; 1713, 2006)
   - 2007, 2008; 2010, 2204, 2208 (4)
   - Soils: 1312, 1315, 1316, 1317, 1412
   - 1614, 1713, 1714, 1814, 2208; 2210 (2)
   - 2608

3. Comments and interpretations:
Jefferson Patterson Park & Museum
DAILY FIELD JOURNAL

1. Day's activities: Maps, soils descriptions

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)
   - See index to soils
   - All profile, plans

3. Comments and interpretations: Completed checking of maps, with exceptions (as noted later).
   Separated all maps and soils by profile, plan, grave and put in numerical order. Completed index to all soils sheets (except for problems).
   No numbers assigned (suggested "Lab specimen #" ) yet. Tomorrow - complete indexes for plans & profiles.
   Figure method to enter as a catalogue that will provide easy access - A, B, C, D, etc. - and cross-references.
1. Day's activities: Records

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)
   - Index to Grave Map - completed
   - Began Index to Plan drawings

3. Comments and interpretations:
   - Inside in despite gorgeous weather. ASA bar. talk tonight. Half a day here.
1. Day's activities: Records photos

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)
   - Finished index to maps
   - Checked more p. cards
   - Started catalog of film (Photo log)

3. Comments and interpretations:
   - Warm. Oil cleanup in lab. Paul & Ruth puzzled over NPS methods thought of complicated way to access our records. 1/
1. Day's activities: Skeletons & B&W photo

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)
   File #5 714-1/1-25, 714-2/00-37, 691-1/1A-
   36A, 744-3/1-36A, 771-1/2-36A

3. Comments and interpretations:
   Cleaned #9 (incomplete)
   Finished #2 cleaning on drying rack
   * #9-1 bagged but not labeled!

   - Catalogued photos Pox Pt 8/1989 - 10/1989
Day's activities: Black & white photo cataloguing

Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

Comments and interpretations: Some gaps, particularly on rolls 1005-1, 1005-2 (unidentified features before and after excavation). Roll 808-1, 2 includes Cedar Point and King's Reach/St. John's analysis slides (mostly negatives/positives). Jim Hooser processed into slides for JAK (SHA-3). Roll 808-3 includes Smithwood photos prior to demolition in the May of 1990.
JEFFERSON PATTERSON PARK & MUSEUM

DAILY FIELD JOURNAL

Site: 18 CV 271
Project: Pat Point
Date: 6-7-91
Observer: AWT 9:15-3 pm / PST

1. Day's activities:
   - Skeletal re-bagging and inventory
   - Cataloguing
   - Pax Point black and whites

2. Areas and levels worked or supervised:
   - File #s 1005-4/0 - 36; 1005-5/1-
     36A; 1036-1/2 - 36A; 1064/6 - 36A

3. Comments and interpretations:
   - Described form to better monitor skeletal condition and location; inventorying 10 skeletons 1-5, and noticed that #1, 2, 9, 3 were not bagged in form, possibly leading to unnecessary damage. Re-bagged #1 using form. Will meet with Julie on Monday at UMCP McKeldin to do lit data search on fences. Finished washing.
   - Return on Tuesday to rebag.

   Need to check records to identify #433, 434; #557-560; and folks (Audubon?) who did "field" trip (camp in the Pax Point artifacts, processing, et cetera) 1/2 day, approximately.
Day's activities: Photo cataloguing

Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)
- 1094-3/1-20
- 1094-4/21-36
- 1094-5/1-19
- 1120-1/10-20
- 1120-2/21-36A

Comments and interpretations: Stu helped fill in unknowns from last day's rolls. Most is completed - no blanks from today's work. Total - 661 negatives
Jefferson Patterson Park & Museum

DAILY FIELD JOURNAL

Site 18 CV 271
Project Pat Pit
Date 6-14-91
Observer JST

1. Day's activities: Investigated whether graves had coffins vs shrouds, cataloging 4 hrs

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

3. Comments and interpretations: Of 17 skeletons, only 5 had coffins and 7 had shrouds/pins. Completed #2
1. Day's activities: Bagged, washed + catalogued skeletons
   No 9 drying

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

3. Comments and interpretations: More evidence of disease - #3 has deformed femur + sacrum - Must re-bag other skeletons because foam not used + no label!
   See you in 2 weeks
1. Day's activities: Reviewing catalog sheets, pulling artifacts for study collection

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

   1110P - 1610K ceramics/pipes/

   other sig/noticeable

   and pulled

3. Comments and interpretations: interesting artifacts in bronze pit - yarn cotta pipes. Borrow pit may have burnished later in site's occupation.

   Repacked into Hollinger boxes
1. Day's activities: Finished bagging grave 9, & began grave 10 - 1/2 of grave 10 needs washing

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

3. Comments and interpretations:
   - Grave 9 clearly a child or young subadult.
   - Grave 10 is an adult, probably w/ syphilis?
   - won't know sex till pelvis washed
   - look for signs of congenital syphilis in children!
1. Day's activities: Finished working #10, including disarticulated bones from an apparent intrusive grave which I am labeling 10B or 10C if prov. Not assigned.

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

10 is on drying rack

3. Comments and interpretations: Bones seem "thickened." Noticeable "pits" in thoracic vertebra. Individual is adult, smajre.

Can we keep a roll of foam in the Lab? It's a drag having to drive to the Ag center to get it!
1. Day's activities: Inventarioed shell vs 10-19, b. determine what needs to be cleaned. Bag 60x #0 & 10 still not complete.

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

3. Comments and interpretations:
1. Day's activities: Bagged remainder of 10, started cleaning #11 right hand of #10 cleaned; drying on rack

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

3. Comments and interpretations: Grave 10 was intruded upon by Grave 12, and there were numerous disarticulated bones, possibly representing more than one individual. Right hand cleaned gently because tissue may remain *(No. 9/13)*

   Cleaned #11, child grave was cross-cut by 12
   Did not wash nails. (Were they from another grave? Might have wood on them)
   Be back T, W, Th
1. Day's activities: Bagged #11, Hand of #10

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

3. Comments and interpretations: *In partial grave of child cut into by #10. Carpals of #10 may have tissue remnant. It would help speed things if we could have grave shots printed
1. Day's activities: cleaned 12, begun 14, started cleaning 13, subvault

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

Jefferson Patterson Park & Museum

DAILY FIELD JOURNAL

1. Day's activities: Observed #12 cranium, humerus, disarticulated bone - #8 stacked. #13 continued bagging.

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

   Discussed visit to Smithsonian with Julie. Ubelaker would like all bones numbered. Julie thinks Paula & Ruth could do that. (Sorry guys!)

3. Comments and interpretations: Wondering about why box contains remains of both #11 & #12, which were both cross cut by 10. Are these the disarticulated bones from #10? Cannot find notes or photo to confirm. No screens!

   Why am I bagging & foramming these folks when they are not numbered yet?
Jefferson Patterson Park & Museum

DAILY FIELD JOURNAL

Site: 18CU271
Project: Flotation & Fine screen Sort
Date: 3/17/92
Observer: S. Reeve

1. Day's activities:

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

3. Comments and interpretations:

   1914G Flotation 5 liter - heavy fraction
   Sorted through 1/4", the residue was rough sorted
   to look for small bone, artifacts, gastropods
   there are a great number of broken fish scales
   and residual shell, charcoal

   1914G Fine wet screen 30 liter sample
   Sorted through 1/4" the residue was saved
   Completed CS

   1914G Fine wet screen 40 liter sample
   not completed
1. Day's activities:  
Fine screen separately

2. Areas and levels worked or supervised:  
(List all areas, levels, artifact lots, and features.)

   1914F - Fine Screen 14 liter
   1914F - 5 liter Flotachon 5 liter

3. Comments and interpretations:

   1914F Fire wet Screen 14 liter - Sorted through 1/8 inch
   Less than 1/8 inch not sorted but retained
   Not yet cataloged bone & debris should be checked

   1914F Flotachon heavy fraction 5 liter
   Fine screen less than 1/16 inch rough sorted
   1 bird shot 1 straight pin
   Not cataloged bone & debris should be checked
Jefferson Patterson Park & Museum

DAILY FIELD JOURNAL

Site 18 Cv 271 Parurex Point
Project Sorting of Fine Wet Screen
Date
Observer Julie King

1. Day's activities: May 21: 2 hours; May 24: 2 hours May 25: 0.5 hour

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.) Sorting of Wet Screen Material: 1713F

3. Comments and interpretations: 1713F is the uppermost level excavated in the "ash pit", north half. A rough sort has been accomplished for charcoal, deer, oyster shell, Fish scales, bone, non-oyster shell and artifacts have been completely sorted out. Artifactual materials include very tiny bits of ceramics (2 twe, 1ew), and brass straight pins, some tiny shell, Doss egg shell as well. Mostly fish Boris & scales
1. Day's activities: May 26: 2 hours; May 28: ½ hour

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.) 1713A

3. Comments and interpretations: Began sorting this bottom priv in the north half of the ash pit. There is fish bone, scales, daub, charcoal + gravel as in 1713F, but far fewer fish scales than bone. Charcoal - carbonized wood seems the same as in 1713F for the most part. Some small shell shells. Artifacts include one fragment of clear bottle glass, unusual terra cotta pipe bowl frags, iron nail frag.

5/28: Continued sorting the provenience. Small bone.
1. Day's activities: Sorting of fine wet screen.

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

   J. King - 1713 AA - 0.5 hr, 1713 P - 1.0 hr
   PJM - 1713 AA - 3.5 hr, 1713 P - 1.0 hr

3. Comments and interpretations: Completed sorting 1713 AA. Per previous method, sorting focused on carbonized wood, seeds (?), small shell, and fish remains. Mostly small materials were left to be sorted. 1713 P is a large sample (26 liters) with many large fish bones, shell, and carbonized wood, as well as doubtful colonial artifacts. Used ½" and ⅛" screens to size sort. Completed size sort of about one half of the materials, but did not sort small fraction that remained.
1. Day's activities: Sorting of fine wet screen 17130

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

3. Comments and interpretations: Continued sorting for wet screen of 17130 thru 1/4" fish scales, lots of bone.
   Mostly t.c. pipe; 1 tiny white clay pipe.
   A lot of charcoal and wood. Very few seeds.
   Burned fish, 1 brass pin
Jefferson Patterson Park & Museum

DAILY FIELD JOURNAL

Site 18EP271
Project Patuxent Point
Date 6/9/92
Observer Sue King

1. Day's activities: Fire wet-screws separation

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

   2608 E, 2608F, 2104 J
   1713 P

3. Comments and interpretations:

   2608E Separated to 1/4"; Residual (less than 1/4") needs to be brush searched. Fish bones (1/1) rare. More abundant acid Mockley Ceramics

   2608 E separated and the Residual was brush searched
   Fish bone prominent Faunal assemblage

   2104 J separator but Residual (less than 1/4") needs to be brush searched. Fish bones abundant Fauna

   1713 P continued working fine wet debris from 1/4" - almost alone. Found 4 ooliths but Ed believes they may be striped bass.
1. Day’s activities: sorting

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.) 1713W - JK + Aliza Winnik

3. Comments and interpretations: Began sorting fine wet screen 1713W. First put it through 1/4" mesh to sort out larger materials. Pins + lot of charcoal, fish scales as seen before. A number of smaller wrought nails, about one inch in length. Also some mammal bone - possible pig jaw. No mammal bone had been found (or at least not in great numbers). Began sorting fine materials.
Day's activities: Sorting for bone

Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

1713 F
1713 W

Comments and interpretations: Completed sorting 1713 F. The decision was made to discontinue removing fish scales due to time constraints (in order to get this material to Beth). Did sort out: all bone, all non-oyster shells, egg shell, and artifacts. Found a very tiny shell bead.
Jefferson Patterson Park & Museum
DAILY FIELD JOURNAL

Site 12CV271
Project Panxen P+  
Date 7/10/92  
Observer J. King

1. Day's activities: washing artifacts from fine wet screen / sorting / screening thru 1/4" mesh

2. Areas and levels worked or supervised: (List all areas, levels, artifact lots, and features.)

   1713D  1713F  1610K - sorted
   1713H  1713W
   1713L  1713AA

3. Comments and interpretations: This week, had Gretchen S. screen through 1/4" mesh all 1713 proveniences (except ash pit) that came from me finer wet screen and they were not being sorted by us. Then we began washing all of the material (e.g., artifacts, shell, bone) in water bath. Also washed fragile clay bottle from 1713AA and other materials until s were bone.

   Last night, began to sort 1610K - from the big gray/orange pit. Markedly different from 1713. Many more shell. No pots yet - artifacts are few. A number of modern seed pods but overall little charcoal when compared to 1713. Also very little bone - from shells. This 1610K is the upper shell level so, surprisingly, quite a bit of organic still
