A, Section of ward; B, Transverse section of circular covered way; C, Transverse section of straight covered ways crossing the circular area; D, a view of covered way.

The wards were finished in 1862 and were immediately occupied as dormitories, but the buildings in the interior of the circle made very slow progress. Medical Inspector Jos. K. Barnes, U. S. Army, reported in May, 1863, that

Potomac and St. Mary's Rds.

St. Inigo Station

Is situated in St. Mary's County, Md. on the East side of St. Mary's River about 500 yds. from where it known as the Freest House and about 100 feet from the windmill on a small point or brow of the River at this place. It is easily found and accessible by water being about 100 feet from high water mark. Undoubtedly care will be taken by the steady to guard this Station.

The usual marks of the granite stone and signal pole with four slates was painted with a colored line.
Windmill St. Augustine

Situated on the south side of the St. Mary's River opposite St. Inigo's on the plantation of Geo. Coor. Esq. This was first established as a hydrographic station being a pine tree planted thereon. It was requisite in order to conduct the Threoldite to cut the tree off square 4 feet high and such at a hand without being able to mark the A point with a stone. The top of the stump was trimmed to a triangular shape thus ••• accessible by Boats.

Maryland Archeological Research Units.

One should consult U.S. Geological Survey quadrangles to determine river drainages when project areas lie near the borders of research units.

Brig. Genl. Richard Delafield  
Chief Engineer, U S Army  
Washington, DC

Sir

Lieut. J. L. Cantwell, Corps of Engineers, not having returned. I have made a tracing from the plan of Point Lookout, drawn by him, and also placed thereon a plan and section of the Central Redoubt constructed at Point Lookout, Md. This Tracing I have the honor to forward herewith. The other redoubts will be similar to the Central, except that at the middle of the northern faces there will be in addition, a barbette for two guns. The magazines will be 24' X 6' in the clear instead of 16' X 6'.

I have the honor to be, Sir
Very Respectfully,  
Your obedt. Sevt.

C. Seaforth Stewart  
Maj. of Engrs

Note: The tracing mentioned above is not now with this document in the US National Archives. GJS 6-11-74
